

Part A: State of the Environment over time

Noise complaints made to Council
per thousand residents

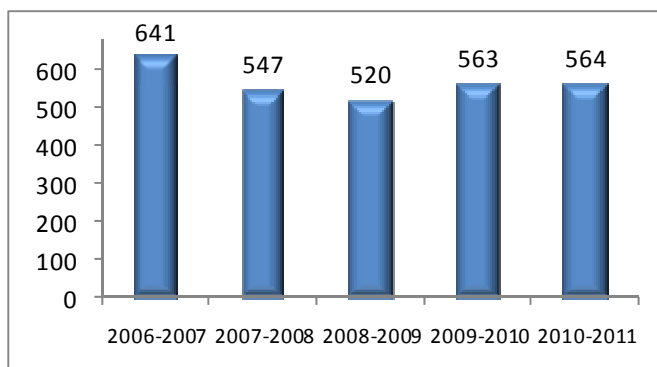

Noise complaints made to other Councils
per thousand residents

Part B: Council response

Council regulatory responses to noise complaints
(includes investigations, notices, orders, fines, court action)

Part C: Performance Summary (from primary indicator)

Trend over time

Stable

Performance against target
(5% improvement from previous year)

Performance against other
local government areas

Relatively equal to other
local government areas

Part D: Comments

Noise continues to be the highest source of Environmental Health related complaints made to Council. Over recent years the number of complaints has remained relatively static with the level of regulatory responses displaying a similar pattern.
